Certificate of Excellence Methodology

Certificate of Excellence recipients were selected using a proprietary algorithm that takes into account the quality, quantity, and recency of user reviews, as well as the business' tenure on the site. Recipients must maintain an overall TripAdvisor rating of at least four out of five, have a minimum number of reviews and have been listed on TripAdvisor for at least twelve months. A business must be listed for the full 12-month qualifying period between April 1, 2017 to March 31, 2018 to be considered. Recipients are announced only once a year.

"Most Excellent" Methodology

"Most Excellent" hotel chains were calculated as a percentage of Certificate of Excellence recipients relative to their total number of properties, with small chains 20-50 properties, medium chains 50-500 properties and large chains >500 properties. To qualify at least one third of each chain's properties must have been Certificate of Excellence recipients during the most recent Certificate of Excellence period.
