

Trending Destinations for Travel-Starved Americans Revealed: Tripadvisor Announces 2021 Travelers' Choice Best of the Best Awards

January 26, 2021

Travelers Favoring Outdoor Destinations and Dreaming of Worldwide Travel Serengeti Rated World's #1 National Park in Inaugural Category

NEEDHAM, Mass., Jan. 26, 2021 /PRNewswire/ -- Today, [Tripadvisor](#)[®], the world's largest travel platform, released its annual Travelers' Choice[®] Best of the Best Awards for Destinations, highlighting the **Popular**, **Trending**, and **Emerging Destinations** around the world, as well as a new category for 2021: **National Parks**. The awards are based on the quality and quantity of reviews and ratings for accommodations, restaurants, and things to do in destinations worldwide on Tripadvisor over a 12-month period.

The awards reveal where travelers ventured in 2020, while travel was still open, as well as where they dreamed of going while the pandemic kept them stuck at home. With travel restrictions in place for much of the year, travelers explored the world very differently -- they took more local trips closer to home and favored outdoor spots, away from crowded cities. According to a recent survey of Tripadvisor travelers, more than half (52%) say they are more likely to take an outdoor or nature trip than they were before the pandemic¹. As a result, the Travelers' Choice Trending Destinations for 2021 are almost entirely outdoor destinations. Sun Belt destinations dominated the U.S. list, with **Gatlinburg, Tennessee**, at the heart of Great Smoky Mountains National Park, taking the top spot in the United States. On the global stage, **Cabo San Lucas, Mexico**, is the number one Trending Destination, seeing the biggest spike in top reviews and ratings last year.

While COVID-19 kept travelers from exploring too far from home last year, it couldn't stop them from indulging their wanderlust dreaming of the destinations that would be on their go-to list once travel opens up again. Topping the world's Travelers' Choice Emerging Destinations list — the places travelers are "saving" on Tripadvisor, and that everyone will be talking about next— is **Martinique** in the Caribbean.

"Alongside the latest vaccine developments, pent-up demand is prompting the world to think more about travel in 2021," said Christine Maguire, vice president and general manager, global media business at Tripadvisor. "But one result of the pandemic may be the destinations they're interested in. In fact, a recent survey revealed that 74% of travelers will spend more time selecting a destination when planning their next trip². If you're like me and already imagining your first post-vaccine vacation, this list of travelers' favorite destinations can serve as your inspiration."

Methodology

The Travelers' Choice Best of the Best Awards for Destinations honor travelers' favorite destinations worldwide based on the quality and quantity of reviews and ratings from Tripadvisor travelers for accommodations, restaurants, and things to do in destinations worldwide over a 12-month period (December 1, 2019 through November 30, 2020).

- The **Popular Destinations** category honors the locations that are the most popular among Tripadvisor reviewers. The methodology takes into account quality and volume of reviews to surface destinations that consistently deliver the best overall experience for travelers.
- The **Trending Destinations** category honors the locations that showed the greatest year-over-year increase in a combination of positive traveler reviews and ratings for accommodations, restaurants, and things to do on Tripadvisor.
- The **Emerging Destinations** category honors the locations that showed the greatest year-over-year increase in "saves" for accommodations, restaurants and things to do on Tripadvisor. Travelers can "save" their travel ideas and plans on Tripadvisor by tapping the heart icon on places to stay, restaurants, and things to do. Saves is a great indicator of what travelers are interested in doing in the future, as opposed to what they have done or are booking now.
- The **National Parks** category honors the scenic and historically significant parks that are the most popular among travelers, according to reviews and ratings for accommodations, restaurants, and things to do on Tripadvisor.
