The new Management Dashboard, which is available for free to all registered business representatives, can be accessed via the [TripAdvisor Management Center](#). The dashboard provides reporting on everything from a business's total reviews and current popularity ranking to the business's most viewed competitors and the countries generating the most traffic to the business's TripAdvisor page.

A more comprehensive version of the Management Dashboard will also be available in the coming weeks exclusively to all accommodations with [Business Listings subscriptions](#). This version offers additional powerful metrics and information, including graphics depicting a property's Business Listings performance both over time and relative to their competitors in the same geographical region. They also receive a Special Offers recommendation tool for suggestions on how to use offers to capture travelers' attention on TripAdvisor.

TripAdvisor Business Listings enables individual hotels to increase their property's exposure in front of TripAdvisor's more than 50 million unique monthly visitors\* by adding their direct contact information—such as a website link, email address and phone number—to their property pages on the site, and also by adding special offers on high-visibility pages.
